SUMMARY

Product Manager (2+ years) who brings **scientific research training** (MSc Cancer Research, Glasgow) into AI-first edtech product decisions. Shipped a **0-1 Gen AI Lesson Planner** cutting teacher planning effort by **70%** for **30K+ users** at Narayana Group, one of Asia's largest educational networks. Ships across a **4-app portfolio (iOS + Android)** with **2.2M+ downloads at a 4.6 average rating**, drives operational efficiency across **700+ institutional units**, and champions **OKR adoption with 90% success** through hypothesis-driven, evidence-led experimentation.

EXPERIENCE

Associate Product Manager

Sept 2023 – Present

Narayana Group | One of Asia's largest educational networks | 800+ institutions, 700K+ students

Hyderabad, India

- Conceived and shipped a **0-1 Gen AI Lesson Planner** integrated with Microschedule's curriculum graph, auto-generating optimized teaching plans for **30,000+ teachers** pan-India
- Reduced lesson-planning effort by **67%** (from 1 hour/day to under 20 minutes), freeing teacher capacity for direct student engagement at scale
- Shipped and iterated product across a **portfolio of 4 mobile apps (iOS + Android)** serving **2.2M+ downloads** at a sustained **4.6 ★ average rating**, balancing growth with user satisfaction
- Owned end-to-end product delivery for **enterprise planning tools** deployed across **700+ institutional units**, lifting operational efficiency by **25%**
- Drove cross-functional alignment across design, engineering, and QA, increasing core feature adoption by **40%**
- Led product enhancements to **Microschedule**, the org-wide academic planning and progress system, automating planning, reporting, and monitoring to reclaim an estimated **INR 4 Cr/year** in teacher and administrative time
- Conducted **30+ user interviews** and workflow analyses; surfaced insights that reshaped roadmap priorities and lifted user satisfaction by **30%**
- Implemented agile prioritization frameworks, compressing release cycle time from **10 to 8 days** (20% faster shipping)
- Championed **OKR adoption** across the product function with a **90% objective hit-rate**; identified high-friction workflows and drove automation reducing manual input by **60%** (task entry: 6 min → 2.5 min)

Business Analyst Intern

Apr 2023 – Sept 2023

Terranova | Healthcare

Hyderabad, India

- Analyzed operational and performance metrics, surfacing inefficiencies that informed process changes contributing to a **15% revenue lift**
- Mapped customer pain points and translated them into recommended product and process improvements adopted by the team
